## ELECTION RETURNS.

The Gazette office will be open this evening for the reception of election returns. People interested are invited to call and hear the result announced.

## RESULTS.

—Have you voted?  
—The election is progressing very quietly.

—The funeral of Frederick Lentz was held at three o'clock yesterday afternoon.

—Mrs. R. A. Bruns started to-day for Kansas City, Mo., to join her husband, in which city they will make their home.

—A. H. Sheldon and G. M. Hanchett are wondering how many people have asked them about that Ashland real estate.

—If all the saloons were closed to-day then the people that passed in through back doors, must have been going to attend a family reunion.

—Hereafter Superintendent Kenyon will be at the rooms of the Associated Charities from 9 to 11 every morning instead of from 2 to 4 in the afternoon.

—Capt. Edgar Ruder, of this city, drew the map of the battlefield of Chickamauga that appears in the current number of the Century.

—Why is it that the man who never owned any property but a carpet bag and two paper collars always signs himself "Taxpayer" when he writes for the paper?

—It is an open question whether C. L. Clark would not be willing to give up his chances of heaven for an opportunity to write a communication and sign it "Republican."

—Sheriff Ward has another female patient to be taken to the Mendota insane asylum. She is from Edgerton, and is the eighth person sent from Rock county within three months.

—Now that the Guards are not likely to visit Washington they are talking of attending the big celebration in Chicago next October. The affair will be in honor of Chicago's semi-centennial.

—The noise and excitement of election day so aroused a team of farm horses this morning that they ran away scattering tobacco cases in every direction. The affair happened in the first ward.

—The Rev. L. H. Cook, of Juda, who was so thoroughly exposed by the daily papers recently, has left for parts unknown. The charges of immorality made against him were admitted to be true.

—Beloit thinks of having a special day at the fair. There is talk of making up a wedding outfit in that city, and having a Beloit couple married on the grounds, as an offset to the Janesville attraction.

—Jewelers are complaining because their "tinkers," by which standard time is given each day, do not work. For some time past the report has been received only about twice a week instead of every day.

—Major George M. Randall, U. S. A., cast his first vote to-day. He enlisted while under twenty-one, and has never been home to an election until now, this being the twenty-seventh year of his service.

—Reports that reach us from towns which Mr. Henry George has visited make it seem as though Wisconsin people consider him a better investment at current prices than tickets to Mr. Henry George's lectures.

—In the fifth ward one woman appeared at the poll, and after going through the preliminary arrangement of swearing in her vote, (being vouchered for by a democratic candidate), voted the republican ticket.

—The Ladies' Christian Union of the First Methodist church will meet with Mrs. S. H. Kemmerer, on Academy street, fourth ward, on to-morrow (Wednesday) afternoon at two o'clock. A full attendance is desired.

—Miss Angie King lectured on the "Science of Law" at the Wayside Inn, last evening, and was attentively listened to by a good number of interested spectators. After Frank L. Hayden drilled the boys, Mr. Hildebrandt favored those present with some very fine music.

—Superintendent Keyes informed a Gazette reporter that all of the arrangements for the summer school of science at Madison, have been made. Mr. Keyes is a member of the committee on arrangements and reports that the prospects for a successful session are very encouraging.

—Michael Martin, a brakeman, while coupling cars in the Milwaukee & St. Paul yard last evening had three fingers of his right hand badly crushed. His wounds were dressed by Dr. Whiting, who hopes that the fingers may be saved. Martin returned to his home in Chicago on the night train.

—Yankirk Bros. have closed a deal with Crockett & Postel for 1,000 sacks of flour to be ground from "No. 1 hard" Minnesota wheat entire, making a very fine "straight" flour. This they are putting up under their own brand of "Cream," and we doubt if any flour in the state can match it for the money.

—At 7:30 o'clock last evening, when City Clerk Church called the roll of aldermen, only Aldermen Carpenter and Fathers answered to their names, and the council was declared adjourned for want of a quorum. A special meeting will undoubtedly be called in a few days to clear up business which has remained on the tables for the past six weeks.

—W. H. Sherwood's concert at the School for the Blind, was highly appreciated. Besides treating the pupils to some very fine music, on the piano Saturday night, Mr. Sherwood spoke to them of the lives of great pianists, and gave many suggestions of value to those studying music. He said that blindness was really no drawback in the attainment of musical culture as many very celebrated musicians have been without sight.

—No handsomer place of business than that of Paul Colvin, on West Milwaukee street, could be desired. Since its opening many have paid it a visit and all are agreeably surprised. The bakery proper is still partly unfinished, but the sales-room is complete and presents a very attractive appearance. Finished wholly in cherry with elegant show cases and marble top cream tables, and having Miss Hattie Fincham to wait upon customers there is little more to be asked. The line of goods carried includes fine candies as well as bread, biscuits, cake and fancy pastry. Ice cream is to be served during the warm weather and a lunch

## TOBACCO NOTES.

From every side comes the word "plant less tobacco." Farmers this year will depend upon their other crops as stand-bys and will handle the leaf as a speculation.

Sales during the past week have been reasonably frequent. Nothing but extra choice lots have commanded high prices, however, and these lots were in the minority. Most of the figures were between eight and ten cents.

For old stock the demand was fair and prices well sustained. There is comparatively little of this left, and the better quality is disposed of without much trouble.

In New York during the week a steady run of business was kept up which is likely before long to clear the market of all serviceable tobacco. Old stocks are becoming less popular than new.

Buyers in some of the other markets have been quite active, notably in New York and Ohio. In the first case prices ranged from eight to 14 cents, while in the other they remained at about six.

The debate as to whether Spanish or seedling is the most profitable leaf, still attracts considerable attention among eastern growers. Another factor in the leaf trade, which has just been heralded is the Borneo wrapper which can be raised cheaper than Sumatra and which is said to be fully as good. If this gains much of a foothold in the American market Sumatra as well as domestic leaf will suffer.

THE INSIDE TRACK.

The date of the Oliver Byron company here in "The Inside Track" is next Wednesday. The Daily Journal of Elizabeth N. J. says: "Last evening the Byrons appeared at the Temple opera house in their success, 'The Inside Track,' and were enthusiastically greeted by a good house. 'The play as given was a sensational one, but of such a nature as to keep the audience in a continual state of excitement. The Byrons were at their best, and the support given them by the entire company was of the most excellent character. The audience was the largest and most enthusiastic that has yet assembled in the new opera house. Mr. and Mrs. Byron being repeatedly called before the curtain.' A handsome floral lantern was presented Mrs. Byron, it being a fine example of the old fashioned one used by her as Jerry Twaddle in the play."

WOMAN EXCHANGE.

The object of this association as stated in its constitution is to provide a depot for the reception and sale of any market article which a woman can make in her own home, or any valuable article which her necessities obliges her to dispose of, thereby assisting a woman in turn to profit whatever useful talent she may possess.

All deposits shall be made under the head of the following departments: Editor, art and art embroidery, plain sewing, knitting and crocheting, and miscellaneous. Each contributor upon the payment of one dollar per year, will receive a ticket denoting the number by which her articles will be known. The year dating from December 1st to December 31st.

Work is received subject to the approval of the managers, who reserve to themselves the right of saying at any time that they can receive no more of such and such articles, because they are unsalable or because the supply exceeds the demand, or for any other cause that seems sufficient to themselves.

Articles excepted edibles will be allowed to remain in the exchange six months and cannot be withdrawn within one month from time of deposit.

The exchange will not be responsible for goods lost, proper care having been taken of the same. Contributors are requested to put their own price upon article sent, though suggestions on the part of the society are always in order. Every article must have the seller price and number securely fastened to it and must be free of charge to the exchange and at the owner's risk.

City depositors will receive money due them at the exchange rooms every three days from ten to six. Money will be sent to depositors at a distance every three months when the amount exceeds five dollars.

Orders can be taken daily at the rooms and will receive prompt attention. This institution is under the auspices of the W. O. T. U. and is carried on by them in connection with the lunch counter at the Wayside Inn.

ALBANY.

—The river is practically clear of ice and navigation is a thing that may take place with the first warm sunny day. The way the boats are being caulked, painted and set to order is a caution to old time, and a gentle reminder that the interest in the river is not dead.

—The regular Saturday afternoon of the steamer Mikado, now in dry dock, will also take on a fresh coat of paint before being launched upon the river.

—Mr. O. Meinert has begun the erection of a substantial residence on Water street, east side. The building is good, the location of a number of residences during the season. Zebulon Sutton will build a cozy house near the Baptist church; W. S. Peckham will build a house on State street; Thomas Mitchell is putting the finishing touches to his residence which is nearly completed, corner Summit and Main streets.

ROCHESTER.

—Another cold snap. Will we ever be sure of continued warm weather?

—Miss Seraph Clinton returned from Chicago last week, where she has been spending the winter under the wing of a sister. Miss Clinton, of Monroe, is visiting with Mr. and Mrs. H. C. Putnam, of this place.

—School opened Monday for the spring term with the same crop of teachers, except in the lower intermediate department. Miss Elsie Starr filling the place made vacant by the resignation of Miss Bertha Sprague.

—Miss Minnie Stone left Monday morning for Janesville, where she will do something to the photograph gallery of Mr. Glass.

—A large number assembled at the Presbyterian church last Tuesday evening to hear Rev. Mr. Harvey lecture upon his travels abroad. His very pleasant and interesting lecture, a story of his travels in South America, and the return across the ocean not omitting a storm encountered on the way. The lecture was enlivened by some fine instrumental music by the concert band and vocal music by a quartet.

—The regular Sunday afternoon of the Blue Ribbon club last Sunday afternoon was well attended and the program well rendered. It was decided that hereafter the meetings would be held Sunday even-
